

Virtual Programs for Grades 1 - 8 Menu

OMAH has been delivering integrated art and history education programs for over 20 years. OMAH's education programs are designed to meet the requirements of the [The Ontario Curriculum for the Arts](#) and the [The Ontario Curriculum for Social Studies, History and Geography](#) at the primary, junior, and intermediate levels.

Virtual programming selections:

Instructional video ONLY: \$30. Video lengths are specified in the chart below.

You will receive a link to a video which can be played in the classroom.

Hybrid (instructional video with the instructor joining via Zoom OR Google Meet): \$130. Approximately 100 minutes.

Along with the video link, your classroom will be set up with an instructor who will tailor the lesson to the specific grade level. This session will be done either over Zoom or Google Classroom (your decision). The instructor will go over the lesson with the class, discussing technique and background before launching the video. They will pause the video part way through to address any questions that students or educators may have, and go over their progress. At the end of the lesson the instructor will encourage discussion and have students share their work. The hybrid lesson will include pre and post material for educators to use in their classrooms.

The hybrid package is highly recommended to ensure that lessons are tailored to the appropriate grade levels.

Hybrid with History Component (video + art AND history instructors joining via Zoom OR Google Meet): \$150. Approximately 150 minutes.

This package includes all features of the hybrid lesson as well as a 50 minute historical discussion relating to the art and history of the medium and the artists that the lesson is based on. This discussion can be tailored to the current curriculum of the classroom.

Review the chart below to see which options are available for each program. Click on the program name for more information and to book.
